

Dear Parents

Monday 10th June 2019

Camp School are running a campaign this term as part of SustFest19 in St Albans to raise awareness of the dangers of pollution in our environment.

We are holding a **Clean Air Day** At Camp School on **Thursday 20th June** .

Part of the campaign is to encourage families to think about reducing the amount of pollution from cars around school. We will be handing out leaflets at pick up and drop off on that day, to encourage people to turn off engines if parking near school and engage in active school travel as much as possible.

Another aspect of the campaign is aimed at families making more use of the green spaces in the local community. In the next few weeks, every time you go to a green space or park with your child, please complete a leaf (or make your own leaf) with the name of the place you have visited and bring it school to add it to the tree in the hall.

Thankyou

Ruth Rose/ Lorraine Kent and JTA's/
Eco Committee.
