

Curriculum drivers:

Global and Local Community – We will be looking at the historical impact of WW2 on our local community.

Spiritual and Moral Development – We will be reflecting on moral decisions for individuals involved in the war effort on the home front during WW2.

Areas of Learning:

As Historians, we will learn about the key events of WW2 and its impact on the home front. We will consider the effect of the war on daily life in Britain - examining the Blitz, evacuation and the role of women. We will also consider the social and political consequences of the war in the years that followed.

As Geographers, we will use map skills to locate the countries involved in the war.

As Scientists, Year 5 will identify different types of forces and the effects of these. Year 6 will use electrical symbols to represent circuits. They will also compare and give reasons for variations in how components function.

As Computer Programmers, We will continue to consider ways to stay safe online. We will also be learning how to use spreadsheets.

As Designers and technologists, we will cook a savoury dish using rationed food.

As Artists, we will explore the work of Lowry and his portrayal of perspective. We will use powder paint and water colours to create wartime scenes.

As Musicians, we will compose music to accompany a silent film.

As Linguists, Year 5 will be learning to talk about the weather and clothes in French. Year 6 will be learning to talk about the weekend and clothes in French.

As Athletes, Year 5 will take part in a range of orienteering based activities. Year 6 will take part in games which require the development of communication and tactics.

As Gymnasts and dancers, Y5 will practise and refine the gymnastic techniques used in performances. Year 6 will choreograph creative and imaginative dance sequences.

In RE, we will be looking at creation stories and ultimate questions in Buddhism and Judaism.

In PSHE, we will continue our learning on Protective Behaviours. We will also explore the things that positively and negatively affect our physical, mental and emotional health.
